Trend Micro Experts at Black Hat 2015 to Discuss Threats against Banking and Infrastructure

Speaking Sessions Shed New Light on Cyber Security Threats and Vulnerabilities

DALLAS & LAS VEGAS--(BUSINESS WIRE)--Trend Micro Incorporated (TYO: 4704; TSE: 4704), a global leader in security software, today announced its lineup of speakers and booth presentations at Black Hat USA 2015, August 1-6. Raimund Genes, CTO, Trend Micro, will lead various booth presentations throughout the event, and threat researchers Kyle Wilhoit, Stephen Hilt and Sean Park will detail their research on ICS protocols and POS-related malware.

The following are additional details regarding speaker sessions:

- **The Little Pump Gauge That Could: Attacks Against Gas Pump Monitoring Systems**

  Wednesday, August 5, 4:20-5:10 p.m. – Jasmine Ballroom

  Kyle Wilhoit, Senior Threat Research, Trend Micro

  Stephen Hilt, Senior Threat Research, Trend Micro

  This presentation details real-world attacks to gas pump monitoring systems, as well as a honeypot simulation created to study attackers and their behavior. The presenters will also release a free tool called Gaspot, which allows researchers and gas tank operators to monitor for system threats.

- **Winning the Online Banking War**

  Wednesday, August 5, 11:30-12:20 p.m. – Mandalay Bay GH

  Sean Park, senior malware scientist, Trend Micro

  This presentation will discuss evasion techniques used against financial institutions, such as replay attack, polymorphism; inject randomization, and DOM stealth rootkit as well as countermeasures for those in clientless way.
