Trend Micro Launches Plug-in for Kaseya VSA™

Solution enables Managed Service Providers (MSPs) to easily administer security

DALLAS--(BUSINESS WIRE)--Trend Micro Incorporated (TYO: 4704; TSE: 4704), a global leader in security software, today announced the launch of the Trend Micro Worry-Free Services plug-in for Kaseya VSA, Kaseya's award-winning IT systems management and remote monitoring platform. The Kaseya VSA plug-in, available on May 21, 2016, will be offered free of charge as part of the Trend Micro Remote Manager solution.

"With the growing complexity of IT environments, automation and centralized management have become key success factors for MSPs," said Partha Panda, vice president, corporate and business development, Trend Micro. "Integrating Trend Micro Worry-Free Services into Kaseya VSA provides customers with easy and effective security administration and further reinforces our commitment to deliver comprehensive solutions for our partners."

Trend Micro Worry-Free Services is an industry-leading endpoint security solution, consistently rankedNo. 1 in AV-Testing, as well as No. 1 in Small Business Market Share for five consecutive years. The solution provides immediate protection against the latest cybersecurity threats as well as anti-malware, anti-spam, ransomware protection and data security for PCs, Macs, servers and mobile devices. For seamless, secure transition or adoption, the plug-in allows MSPs to natively integrate Trend Micro with their existing Kaseya VSA console without compromising features and performance.

"Security has become a critical factor for our customers, and Trend Micro has an established reputation for consistently delivering reliable protection across the IT infrastructure," said Mike Puglia, Chief Product Officer, Kaseya. "Kaseya's open platform empowers MSPs to manage best-of-breed solutions through a single pane of glass which increases their efficiency and profitability as they are able to manage their customers' systems."

Additional features of Trend Micro Worry-Free Services plug-in for Kaseya include:

- Deploy Worry-Free Services to every device instantly across entire customer base
- Discover unprotected devices
- Perform scans and updates directly within the Kaseya VSA console
- Dashboard view provides at-a-glance status
