Trend Micro Experts at HPE Protect 2016

DALLAS--([BUSINESS WIRE](#))--[Trend Micro Incorporated](#) ([TYO: 4704](#); [TSE: 4704](#)), a global leader in security software, today announced its participation in [HPE Protect 2016](#), taking place September 13–16. As a Diamond sponsor, Trend Micro will also provide attendees with insight into various security topics related to hybrid cloud security, advanced threats, ransomware, zero-day exploits and other vulnerabilities during its two speaking sessions at the event.

The following are additional details regarding the speaker sessions:

- **[Address the known, "known unknown" and unknown threats in your network](#)**
  Session ID: B10532
  Wednesday, September 14, 1:15 p.m.-2:15 p.m.
  Elisa Lippincott, TippingPoint Global Product Marketing, Trend Micro
  There is bad stuff in your network, but you may not know what it is or where it is. You can't just detect vulnerabilities; you need to take preemptive action against them. Learn how Trend Micro Network Defense can detect and take action on advanced threats, ransomware, zero-day exploits and vulnerabilities across the entire attack lifecycle.
- **[Enhancing hybrid cloud security and visibility](#)**
  Session ID: B10515
  Thursday, September 15, 10:00 a.m.-11:00 a.m.
  Dave Abramowitz, Technical Advisor, Trend Micro
  Attendees will learn how to leverage their investment and connect to, aggregate, filter and analyze events from deep security so they can respond quicker and more effectively to security threats on their cloud instances. Learn how to gain visibility in a virtualized stack and use one platform for reporting and correlation of security incidents.
