

Trend Micro to Participate at the 2021 RSA Conference

Elevating detection and response across security layers enabling organizations to see more and respond faster

DALLAS, May 17, 2021 /PRNewswire/ -- [Trend Micro Incorporated](#) (TYO: 4704; TSE: 4704), a global cybersecurity leader, today announced its participation at the 2021 RSA Conference, May 17th - 20th, 2021. Attendees can visit the virtual booth to learn the latest on protecting against threats in today's rapidly changing environment and attend sessions with Trend Micro's industry experts.

Trend Micro is continually innovating to better anticipate and protect against emerging threats. At the heart of the company's cybersecurity platform, Trend Micro Vision One, delivers visibility and cross detection and response (XDR). It uses telemetry across endpoints, email, cloud workloads and networks to provide correlated detections and built-in threat intelligence for faster response.
