Trend Micro Demonstrates Threat Expertise at Virtual Black Hat USA 2021

World-leading threat and vulnerability intelligence can be experienced at virtual event

DALLAS, Aug. 2, 2021 /PRNewswire/ -- Trend Micro Incorporated (TYO: 4704; TSE: 4704), a global cybersecurity leader, today announced its participation at virtual Black Hat USA 2021, July 31st - August 5th. Attendees can visit the virtual booth to test their skills in the Exploit Elimination Challenge, as well as see how threat intelligence fuels Trend Micro's platform security and attend sessions with Trend Micro's industry experts.

Trend Micro Research is at the heart of the company's ongoing innovation to anticipate and protect against existing, emerging and future threats. The company's cybersecurity platform delivers visibility and extended detection and response (XDR) using telemetry across endpoints, email, cloud workloads and networks. Built-in threat intelligence informs correlated detections and actionable alerts to ease the workload of security teams.
